Sloat Blvd. Pedestrian Safety Improvement Project

- Project team and background
- Budget
- Schedule
- Scope of work
  - Sloat Blvd - Everglade Drive
  - Sloat Blvd - Forest View Drive
  - Sloat Blvd - 23rd Avenue
  - Ocean Ave Paving
  - Caltrans - Sloat Repaving
- Streetscape features
PROJECT TEAM AND BACKGROUND

PROJECT TEAM:

• DPW
  • Peg Divine, Project Director
  • Meghan Tiernan, Project Manager
  • Charles Yu, Project Engineer
  • Ophelia Lau, Street & Highways Engineer
  • Steven Lee, Electrical Engineer

• SFMTA
  • Manito Velasco, Traffic Engineer
  • Bryant Woo, Traffic Engineer

Locations:
Sloat Blvd. at 3 intersections:
  • Everglade Drive / Constanso Way
  • Forest View Drive / Vale Avenue - Under construction
  • 23rd Avenue

Background:
• Sloat Blvd is a state highway (CA 35) and therefore Caltrans R/W under Caltrans jurisdiction
• Community has voiced long running concerns over pedestrian safety
• DPW & MTA worked together to secure the grant funding in 2012 for the current project
Vicinity Map
This illustration shows the three intersections along Sloat Boulevard with proposed improvements (Sloat at 23rd Ave, Forest View Drive, and Everglade Drive). Sloat Boulevard is located in the southwestern quadrant of San Francisco in the southern portion of the Sunset District (Caltrans District 4). Two important nearby destinations include Lowell High School and Lakeshore Plaza (a large shopping center with nearly 40 businesses); Pine Lake Park and Stern Grove (with ten concerts annually and often more than 20,000 in attendance) are also popular pedestrian destinations located to the north of the proposed project area.
Total project budget is $927,357

- Federal HSIP Grant
- Local Match MTA (Prop K Funds)

Highway Safety Improvement Program (HSIP) grant

- DPW and MTA worked to secure the HSIP grant in July 2012
- Project scope and location of improvements is based on collision history
# Project Schedule

## San Francisco Department of Public Works

- Eucalyptus Drive/Junipero Serra Blvd to Sunset Blvd.

## School Begins August 19, 2013

- Caltrans Repaving - Summer 2014
Goal:
Make crossing Sloat Boulevard at Forest View Drive safer for pedestrians

Proposed Improvements(subject to Caltrans approval):
• Install mast-arm traffic signal that will be activated by pedestrian push buttons
• Install pedestrian countdown signals
• Add bulb-outs to 3 corners to shorten distance for pedestrians to cross Sloat Blvd.
• Construct ADA-compliant curb ramps at the intersection
• Extend median to improve pedestrian refuge area & deter inappropriate truck movements
• Install high-visibility crosswalks to better alert drivers
• Add street lights
Plan View: Everglade Drive / Constanso Way

Subject to Caltrans Approval

15'-3" MEDIAN EXTENSION IS CONTINGENT UPON SDOW'S PETITION FOR RIGHT-TURN ONLY FROM NB EVERGLADE; OTHERWISE, 6'-0" MEDIAN EXTENSION WILL BE CONSTRUCTED, UPON CALTRANS APPROVAL.

San Francisco Department of Public Works | Making San Francisco a beautiful, vibrant, and sustainable city. | www.sfdpw.org
Everglade Drive / Constanso Way

- Future stop signs or signals would need to be approved by Caltrans. Accident data does not meet criteria.
- Traffic Analysis shows that 1,000 cars/day cross the median at Sloat/Everglade & Constanso intersection
- Median refuges meet ADA standards
- Bus Stop relocation
  - Near side to farside
  - Loose 3 parking spaces near Constanso
- Right turn only from Everglade onto Sloat
  - Needs 51% approval from neighbors
- Sight lines and planting heights (if funding is obtained for planting):
  - 18” max above pavement for western median
  - 24” max. above pavement for eastern median
SIGNAGE

Merge Sign near Everglade

Truck Restriction Sign removed by Caltrans
- No photo

Pedestrian sign at eastern crosswalk
STREETSCAPE FEATURES

Bulb-out

Bus bulb-out
STREETSCAPE FEATURES

Continental crosswalk

ADA compliant curb ramps
Future Caltrans repaving project (2014):
• Caltrans will repave Sloat Blvd from 19th to Skyline Blvd in summer 2014
• Pedestrian safety improvements will be installed prior to repaving
• DPW staff is working with Caltrans staff to coordinate the project schedule

Future safety improvements:
• New traffic signal at Sloat and 47th Avenue near SF Zoo entry (2014)
• New flashing beacon at Sloat and Beachmont Drive at school crosswalk (2014)
• Proposed flashing beacon in median on Sloat Blvd at El Mirasol for Great Highway closure alerts

Future safety improvement applications:
• DPW will work with MTA to continue to apply for safety improvements grants during future grant cycles to address additional improvements along the Sloat Blvd. corridor
Pedestrian activated hybrid beacon: HAWK
