Cement Work
Tree Maintenance
StreetTreeSF is the citywide street tree and sidewalk maintenance program managed by San Francisco Public Works.

- Starting with the “worst first”
- Removing unhealthy and unsound trees
- Treating tree-related sidewalk damage
- Prune trees on a three- to five-year cycle

San Francisco’s high priority work needs have been organized by geographic area known as “keymaps.”
Keymap (Grid) Pruning
Work has already begun in areas where there are trees and sidewalks in high need of maintenance.
