FUTURE BUS STOPS
BIKE SHARE FACILITIES
BIKE CORRALS
SHARROWS

OVERVIEW

See plan for (E) bus stop locations.
See plan for (N) bus stop consolidations/relocations and (E) to remain as is.
The plan has identified opportunities to add Bay Area Bike Share stations to the streetscape, providing residents and visitors transportation to the larger Dogpatch and Potrero Hill neighborhoods. Potential locations could include Iowa Street, adjacent to the Caltrain Station as a way of linking multi-modal transportation options.
The plan has also identified a need for additional bike parking along 22nd Street, particularly outside the Caltrain Station and near highly frequented businesses along the corridor. Corrals are on-street bicycle racks efficiently located in one parking space.
Sharrows along 22nd street will mark shared bike & vehicular travel lanes, while providing a safe connection between Illinois & Caltrain.

22ND STREET GREEN CONNECTION
